THIS SEASON'S CULTURAL PROGRAMME

Dear Subscriber,

Showcasing the new season's most enticing fashion collections and beauty trends, our September issue bridges the gap between the excitement of summer and the subtler pleasures of the autumn months, which bring with them a plethora of cultural activities. We very much hope you will join us for two prestigious art fairs – LAPADA and PAD London – and the Blenheim Palace Festival of Literature, Film & Music, which we are co-hosting with our sister title *Town & Country*.

As we prepare for seasonal change, our thoughts turn to the world of work, so the time seems ripe to announce the launch of our first-ever *Bazaar At Work* Summit this November. Now is your chance to reserve your place for a day that is sure to be as lively as it is thought-provoking, with talented women at the top of their professions leading masterclasses and workshops spanning a vast range of disciplines.
